Hi Nancy--Thanks for the information!

We have started a new book in English. It would probably help Leila to get a copy and try to get caught up over break.

What would be the best way for me to get a copy of the book to you?

Leila also still has a vocabulary quiz to take (*To Kill a Mockingbird* List #2) and we have started a new list of vocabulary words.

The new vocabulary words are on Schoology so she should be able to find those and get caught up. We can schedule a time for her to take the quiz once she is settled back into school.

Let me know what would work for getting the book to you.

Thanks,

Heather

That sounds very challenging and frustrating. Hopefully Leila is starting to feel better!

Here are two videos that sum up what we have been learning in Earth Science as well as the PowerPoint that has more resources within. (topics - Earth's interior, convection currents, plate tectonics, and plate boundaries creating Earth's features. All of this goes together in a domino effect)

[Video 1](#)

[Video 2](#)

Earth System's Unit PowerPoint, although the plate [boundary recap](#) slides at the end are going to be pretty helpful. The whole PowerPoint is very long because I use it for daily visuals.

Please keep me in the loop and Leila can email me with specific learning questions. Have a nice night!

Sincerely,  
Janelle Woodin

Hi Nancy,

I hope that Leila is able to take some time to recover and hopefully having next week off helps to that end as well. The primary thing for her to work on is the Unit 2 project, which has been posted in the Unit 2 folder on Schoology. Given the circumstances with her being likely to miss additional time, I would be willing to extend the deadline on this from this Friday to the Wednesday after Thanksgiving break. This should give her time over the holiday and a day or two back in the building if she has any questions for me.

Please let me know if you have any other questions or concerns. Thank you.

Matthew

Good morning Nancy,

Thanks for reaching out. I hope Leila feels better soon. I have a lot of material (handouts) that she can use to practice what we did. I can also include in the package the pictures of the board where I write what we do. Is there a way you or someone (maybe a classmate) could pick the material up? I can prepare it today if you can and have it ready at the entrance.

Thanks for letting me know,

Cinzia
