Richard Baker

Notes

10/30/2014

Date

Accompanying documents and plans submitted with the zoning permit application are part of this permit and are on file in the Zoning Office.

Permission is hereby granted in accordance with the requirements and regulations of the Town of Stowe Zoning Ordinance to proceed with the above project. This permit shall not take effect until the time for appeal has passed, or in the event that a notice of appeal is properly filed, no such permit shall take effect until adjudication of that appeal by the appropriate municipal panel is complete and the time for taking an appeal to the environmental division has passed without an appeal being taken. If an appeal is taken to the environmental division, the permit shall not take effect until the environmental division rules in accordance with 10 V.S.A. § 8504 on whether to issue a stay, or until the expiration of 15 days, whichever comes first. No construction or activity related to this approval may occur until the time for appeal has passed.

This approval does not cover any required state approvals. Wastewater System and Potable Water Supply permits may be required for construction or modifications that change the wastewater flow. Other State permits may be required for certain uses. The applicant is advised to contact a DEC Permit Specialist at 476-0195 to discuss the State permit requirements.

The applicant is responsible for determining property lines and meeting the required setbacks for development. All exterior lighting must meet the Zoning Ordinance lighting standards.
